

Welcome to MAN | TopUsed

Dear User!

A few clicks are all you need to gain access to information on the used vehicles on offer worldwide from MAN.

Use the link below to search for trucks

 [International truck search](#)

For a used bus, click on the link below

 [International bus search](#)

You can use the graphics to move straight from one country's page to another.

Vehicle search

You can use the search page to search for vehicles according to various parameters. On the results page that subsequently appears, you have the opportunity to filter the vehicles further.

The "Ident No." link will take you to the detail view for a vehicle.

From there you can send a request for someone to contact you; the request will be forwarded automatically to the Branch responsible.

Collective enquiries

The results page contains a link to enable you to add vehicles to a collective enquiry. You can select as many vehicles as you like by checking the box in front of the Ident No. You can then send the full enquiry by clicking on "Display collective enquiry". Enquiries are automatically forwarded to the branches responsible.

Navigation bar

A navigation bar is available in the upper section of the application.

This will always tell you which function you are currently in; one click will take you back to the previous page.

Registration

You have the option of registering, to enable you to conduct an extensive search. Click on the relevant link in the header menu and complete the form.

Would you like to be informed when MAN has booked a vehicle fitting your search profile (see below) back into stock?
If so, please complete the "Notify" field.

With self registration, you can create an individual user ID. You will receive an e-mail confirming the e-mail address you have given. As soon as you acknowledge this, you can use a number of additional functions once you have successfully logged in.

Search profiles

You have the option to create several Search profiles. If MAN books a vehicle matching your profile into stock, you will be informed by e-mail, provided you confirmed you wish to be notified (see "Registration" section, keyword "Notify").

Further search parameters and information are also available to you in the vehicle search and detail page.

List of features form

Do you want to make a comparison of vehicles you are interested in?
If so, you can select the vehicles on the results page and use the relevant link to add them to the list of features form.
This form enables you to make a comparison of key data for up to 12 vehicles.

Questions and suggestions

A contact button is available in the header menu, should you wish to get in touch.
